At page 19, lines 24-31 replace the paragraph with the following paragraph:

--The sequence for the murine genomic DNA is not known and has not been published, however part of the amino acid sequence of mouse GP IIIa was available (Cieutat et al. (1993) *Biochem et Biophys Res Comm.* 193:771-778, and Dr. Jean-Phillipe Rosa, *Unite INSERM* 348, Paris) and its similarity to human GP IIIa sequence suggested the genomic GP IIIa from humans and mice could be fairly similar. Therefore, several PCR primers were generated towards the mouse GP IIIa sequence in areas which, in the case of human GP IIIa, spanned the two exons known to encode the cytoplasmic domain of GP IIIa i.e. Exons M and N (Lanza, F. et al. (1990) *J. Biol. Chem.* 265: 18098-18103). These primers were then tested with total--

At page 20, please delete the following paragraph starting at line 14:

The amino acid sequence having SEQ ID NO. 1 is as follows:

```
GEHHTTRGV  SSCQQCLAVS  PMCAWCSDEA  LPLGSPRCDL  KENLLFDNCA  PESIEFPVSE        60
